

Community Support for Families

ABOUT COMMUNITY SUPPORT FOR FAMILIES NEW BRITAIN/MERIDEN

Community Support for Families is a voluntary, family-driven program designed to assist families in strengthening natural and community support systems to maintain safe and healthy home environments. The program serves families in the New Britain and Meriden area who are referred by the Department of Children and Families. Our staff help identify each family's unique strengths and needs, and assist in overcoming barriers to meeting those needs by:

- Establishing links to community supports and services for food, clothing, shelter, mental health and/or substance abuse treatment, and other services
- Working with families to identify and mobilize natural supports
- Providing information on parenting and child development or other interventions to increase safety for children
- Supporting parents' connections with their child's school community

OUR APPROACH

The Community Support for Families program utilizes care coordination as a tool for empowering and encouraging families to identify their needs and take the lead role in the development of a plan of care. Program staff meet with the family at times, locations and at the frequency that works best for each family. Our team is also available on-call 24 hours a day, 7 days a week to provide support.

PROGRAM GOALS

The goals of this program are to:

- Help families identify and meet basic needs
- Support families' connections to resources in their communities
- Enhance parenting skills
- Strengthen bonds between parents and children
